HAPPY CLIENTS

Three different states in a single day

Nothing trumps face to face meetings, but when your clients are spread across the USA, traveling to see them can mean being out of the office for long periods of time, which can really take its toll on both your company's productivity and your work/life balance. That was the challenge facing Tom Aronson, President of Aronson Group, an insurance brokerage in Bettendorf, Iowa with clients as far apart as Northern Minnesota and Texas. But by chartering a plane from Revv, he was able to visit clients in three different states in a single day and still be home in time for dinner. And, by Tom's reckoning, all for about half the price of keeping a team on the road for several days. This year, be like Tom and revv up your business travel.

THREE MEETINGS IN THREE STATES, AND BACK HOME IN TIME FOR DINNER.
