

MEMBER MONDAY

Beach Aviation Services

MISSION

Beach Aviation Services' mission is to provide a high level of customer service and satisfaction through trust, respect, and integrity.

OVERVIEW

Beach Aviation Services, with operations at Myrtle Beach International Airport (MYR), Grand Strand Airport (CRE), Conway Horry County Airport (HYW), and Twin Cities Airport (5J9), is the gateway to the Grand Strand. They are committed to providing a clean, safe and passenger-friendly facility that is capable of meeting current travel needs with VIP level of customer service.

The Beach Aviation Services staff consists of a dedicated and professional team with many employees who have proudly served in the Airforce, Army, Marines, Navy, and the Coast Guard.

Beach Aviation Services is owned by Horry County and operated by the Department of Airports.

Visit

Beach Aviation Services will be cutting the ribbon on their new 18,000 square foot transient hangar at KMYR in early 2020. Also, the Department of Airports has been investing a significant amount of capital into all of Beach Aviation's assets, including replacing the ramp adjacent to the FBO at KMYR, increasing fueling storage capacity, installing a new runway lighting system at KHYW, and opening a new runway at KCRE earlier this year.

"General aviation is vital to our economy, and Horry County Department of Airports is investing in its team and infrastructure to ensure civil aviation continues to thrive," said Scott Van Moppes, Beach Aviation Services' Director of Airports. "Beach Aviation Services' three locations are strategically located, making it easy for military, corporate, recreational, agricultural fixed-wing, and rotor customers to access our facilities. Our team of dedicated professionals strives to ensure that every guest has a memorable experience that exceeds expectations."

Beach Aviation Services offers SHELL aviation products and accepts the SHELL points card. They also offer quantitative pricing for their contract fuel customers.

"NATA's mission and dedication are vital to the aviation industry as it ensures all stay abreast of government regulations while striving to provide its members with the latest education and safety training. NATA Safety 1st program, along with other concurrent training for both the Line Service Technician and the Customer Service Representative, is of great benefit to Beach Aviation Services."

- Tim Jackson, FBO Manager
