Chantilly Air, Inc

OVERVIEW

Chantilly Air is an Aviation Services Company providing Aircraft Maintenance, Charter, Management, Storage, Ground Support, and Aircraft Sales and Acquisitions. Chantilly Air holds the highest ratings available for their exemplary safety record, superior equipment and processes, and strict adherence to best industry practices.

Chantilly Air began as a single jet, corporate flight department in 1990 and has enjoyed tremendous success and growth over the years expanding its business offerings to include aircraft charter, management, maintenance, hangar, and ground support. The company was originally established as a corporate flight department to support the diverse business entities of the owners who have enjoyed an established business reputation in the Washington, DC metro area for over 75 years.

VALUES

Chantilly Air, Inc's operations are based on four core values:

1. Safety
2. Reliability and Efficiency
3. Comfort and Convenience
4. Professionalism

History

Focused on their principals' philosophy, safety is, and always will be, first. They have successfully completed numerous onsite safety and compliance audits by industry recognized aviation audit firms such as Wyvern WINGMAN and IS-BAO Stage 3. Chantilly Air is a Wyvern Approved Operator for having an exemplary safety record, superior equipment and processes, and strict adherence to best industry practices.

Chantilly Air has over 28 years of experience in corporate aviation. With their staff of highly experienced personnel, they are fully capable of supporting your company's flight operations needs with their aircraft maintenance, fueling, charter, and management services, and have ample storage available within their approximately 70,000 square feet of hangar space.

Chantilly Air is also gearing up for the future! In 2020, they will complete construction on the region's most modern, state of the art FBO facility to support the general aviation activity at Manassas Airport. The complex will consist of over 60,000 square feet of hangar space and more than 24,000 square feet of office space situated on more than 9 acres of land. Amenities include conference room space, crew planning area, a fitness center, and more (www.chantillyair.com/FBO).

As an FAA Part 145 Repair Station, Chantilly Air provides expert repairs and maintenance for your aircraft. Chantilly Air's FAA-maintenance facility comes equipped with the latest technology, equipment, and the highest trained maintenance technicians in the business. All Chantilly Air maintenance technicians and service personnel receive regular training from the manufacturer's approved training providers such as Flight Safety International as well as periodic on-site Manufacturer Factory Training, such as Bombardier Learjet and Pratt and Whitney, to keep up to date with the latest technologies available.

Chantilly Air is proud to have an accident, incident, and violation-free safety record, and a reputation as a safe and reliable aviation company.

NATA Member Mondays

The National Air Transportation Association's Member Monday series highlights the diverse businesses that make up its membership to show their positive impacts on their communities, the business aviation industry, and the world at large.
